Three Months.....$1

ISSUED EVERY TUESDAY MORNING IN TIME FOR THE MAILS

EUROPE.

PARIS, July 8.—*Le Temps* says France and England made a covenant in 1878 not to annex New Hebrides. Then a company of colonists of New Caledonia bought several of those islands and obtained concessions in others, in order to counteract the covetous designs of Australia, and it now becomes necessary to supplement the vague covenant by according to that company rights similar to those granted by Great Britain to the British North Borneo Company.

PARIS, July 8.—The French column, after a succesful campaign in upper Senegal, was attacked with typhus fever, and the situation is becoming grave. Col. Desbordes, French commander, instead of marching to St. Louis, the capital, resolved to reach the coast and embark on the French transport Garonne. This effort proved fatal to the column, as the commander of the Garonne, fearing the crew might be attacked by contagion, refused to receive the afflicted soldiers on board.

PARIS, July 7.—Chambord saw the Orleans princes to day, notwithstanding the advice of his physician not to see visitors.

FROHSDORF, July 8.—The condition of Count de Chambord continues slowly improving and his mind is now more clear,

MARSEILLES, July 8.—A meeting attended by 100 persons was held today, to protest against the sentence recently passed on Louise Michel. A resolution was adopted pledging those present to murder the jurymen who convicted her, at the first opportunity. The author of the resolution will be prosecuted.

PARIS, July 8.—It is stated that the cabinet has resolved to dispatch a not to Earl Granville, pointing out the contemplated British annexation of New Hebrides as contrary to the agreement previously entered into by Great Britain.

PARIS, July 8.—An extra budget of 300,000,000 francs will be submitted to the chamber of deputies by the government, as security for the 3 per cent loan of the same amount, to be issued at the end of the year 1883.

BERLIN, July 8.—The *North German Gazette*, referring to Cardinal Jacobini's latest letter to the Prussian Government, says: Diplomatists at the Vatican are trying to show that the new church bill is of little value. The Prussian Government expects the Vatican to make the next advance, and if none are made to Prussia she will continue her present course of independent legislation as far as feasible. It would have been better and more skillful on the part of the curia's diplomatists if the note had remained unwritten. There existed at the time no absolute necessity for its dispatch. The arrogant grumblings and criticisms contained therein afford fresh proof that it will be impossible to satisfy the new demand of the curia, and it will only result in preventing Prussia making further conciliatory advances.

CONSTANTINOPLE, July 9.—A Turko-American commission has been appointed to examine into the question of the establishment of a petroleum department. The porte has addressed a note to Gen. Wallace, the American Minister, pointing out that it notified him of Turkey's withdrawal from the treaty of commerce with America on the eve of its expiration, and invited him to negotiate for the conclusion of a new treaty.

ROME, July 9.—It has been arranged that if the Count de Paris becomes the recognized claimant of the monarchy in France, he will come to Rome to pay his respects to the Pope.

LONDON, July 8.—The bishops are so much alarmed at the stormy criticisms evoked by their opposition of the deceased wife's sister bill that they are preparing a public reply in justification, explaining their motives. The royal family is much vexed at the failure of the measure, which puts the intended marriage of the Princess Beatrice to her widowed brother-in-law as far off as ever, that project being said to explain the warm advocacy of the bill by the Prince of Wales and his brothers.

LONDON, July 8.—The *Observer* says: "It is clearly evident that the coming rifle meeting at Wimbledon will be the most successful in many years. The Canadian team has taken up quarters at the camp. Most interest centers on the American team.

LONDON, July 8.—The report that James Carey had left Dublin is confirmed. The government refused to give him any reward or written pardon. On Monday a detective called on him, with an order for his delivery, and drove with him in a cab into the city. Having been given the alternative of being turned unprotected into the streets, or his passage to London and thence to some colony in the east, he accepted the latter. His family had already gone to London, supposably to avoid suspicion.

DUBLIN, July 8.—At the Sligo assizes, Rogerson, Tanzy, Kelly and Haughton, implicated in the murder conspiracy, were found guiltly. Two informers testified that the prisoners and a number of others, obeying the orders of a secret society, attempted, in March 1882, to blow up the Weston house at Galway. If they had destroyed the house and killed the inmates they were to receive £500. Failing to take a life, were to receive £300. Five pounds of dynamite were exploded on a window sill with little damage, owing to the lack of skill of the conspiritors.

DUBLIN, July 8.—Twelve bishops, including Cardinal McCabe and Archbishop Croke, were absent from the meeting of the Catholic hierarchy here yesterday, which adopted resolutions denouncing state-aided emigration and favoring cultivation of tracts of land in Ireland, which could maintain the surplus population.

CORK, July 8.—Detectives have exhumed a box containing 6000 dynamite cartridges, part of the proceeds from the great dynamite robbery in this city two years ago. The knowledge that a large amount of dynamite was in bad hands since the robbery has been the cause of continued anxiety to the authorities

POPULARITY.

Why they are popular. reason that National Pills are so universally popular is because they are certain in heir action, mild and painless in their operation, and never leave the bowels constipated. They are sugar-coated, and contain no mineral poison. (55)

A REMARKABLE FACT.

It is a remarkable fact that W. A. Edgers, of Frankville, who was so far gone with liver and kidney complaint that his life was despaired of, was cured with four bottles of Burdock Blood Bitters. At one time he lay a fortnight without an operation of the bowels. (36)

THIS IS RELIABLE.

R. N. Wheeler, Merchant, of Everton was cured of a severe attack of inflammation of the lungs by Hagyard's Pectoral Balsam. This great throat and lung healer cures weak lungs, coughs, hoarseness, bronchitis, and all Pectoral complaints.

PHOSPHATINE.—An almost certain remedy for Pulmonary Consumption and all chronic and wasting diseases. The greatest medical discovery of the nineteenth century; a scientifically prepared remedy free from quackery; pure, delicious, natural and permanent in its results. Its efficacy is something wonderful; discovered by Prof. G. Lowell Austin, Boston, Mass. Price $1.00 per bottle. For sale by all druggists. dw

ASSESSMENT NO. 30.

NOTICE IS HEREBY GIVEN, THAT AT A meeting of the Trustees of said Company held on the 7th day of June, 1883, an assessment of 80 Cents per share was levied upon the capital stock of said company, payable forthwith to Charles Wilson, Secretary, at the Company's office, Barkerville, B. C. Any stock upon which said assessment shall remain unpaid on 9th day of July, 1883, shall be deemed delinquent, and will be duly advertised for sale at Public Auction and, unless payment be made before, will be sold on the 6th day of August, 1883, to pay the delinquent assessment together with costs of advertising and expenses of the sale. CHARLES WILSON, Secretary.

NOTICE.

HIS HONOR THE LIEUTENANT-GOVERNOR in Council has been pleased to direct that the Notice dated 1st July, 1873, reserving a strip of land twenty miles in width along the Eastern Coast of Vancouver Island, between Seymour Narrows and the harbor of Esquimalt, for Railway purposes, be and is hereby rescinded; and that all Public Lands lying within the following described boundaries be reserved from the date hereof, in furtherance of the construction of the Island Railway, viz:

A tract bounded

On the South, by a straight line drawn from the head of Saanich Inlet to Muir Creek, on the Straits of Fuca;

On the West, by a straight line drawn from Muir Creek, aforesaid, to Crown Mountain;

On the North, by a straight line drawn from Crown Mountain towards Seymour Narrows, to the 50th parallel of latitude; thence due East, along said parallel of latitude, to a point on the Coast opposite Cape Mudge; and

On the East, by the coast line of Vancouver Island to the point of commencement.

NOTICE.

NOTICE IS HEREBY GIVEN THAT THE UNdersigned intends making application to the Chief Commissioner of Lands and Works for permission to purchase 240 acres of land (more or less) situate in Sooke District, and described as follows:—

Commencing at the Southeast corner of Henry Young's application; thence true North 40 chains; thence true East 55 chains; thence true South 57 chains, more or less, to the Southwest corner of my former application; thence in a Northwesterly direction, following the meanderings of the shore line, to the point of commencement.

F. G. RICHARDS, Jr.
Victoria, B.C., June 28th, 1883. jy4

Daily Colonist.

WEDNESDAY MORNING, JULY 11TH, 1883.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

THE ELEMENT OF TIME.

The organ of the "disgruntled" opposition faction grasps at every straw in the hope of arousing public opinion against the local government. Its latest attempt in that direction is based on the statements of an eastern paper that the Kootenay bill was not forwarded promptly to Ottawa by the attorney general for the consideration of the privy council, and consequently the organ argues that the company are at a standstill—not knowing whether to continue their entire development scheme or abandon the railway part of the project. The organ is wrong, as usual. The house was prorogued on the 12th of May. On the 13th of May, or one day later, the two New Westminster railway bills, the Kootenay railway bill and several public bills were mailed at the Victoria postoffice for Ottawa, and on the day following all the remaining bills of the session were mailed at the same office for the same destination. We doubt if any other province can furnish a similar instance of expedition on the part of its government. The entire work of the session should have reached the federal capital on or about the 24th of May. Had the bills failed to connect at Ottawa that would not have been the fault of this government. But we have reason to know that all the bills were received by the Dominion government in due course and that they had the New Westminster railways and the Kootenay bills under consideration as early as the first of June.

A NEW ZEALAND REFORMER.

According to a New Zealand correspondent of the Melbourne *Argus*, Major Atkinson, leader of the present New Zealand government in the lower house, is delivering through the provinces a series of political addresses with the object of laying before the public a scheme (1) for the reform of the constitution by making the upper house elective, by readjusting the constituencies of the lower house, either amalgamating the present small electorates into fewer large ones, or making the whole colony one huge electorate, on the Hare system; (2) for the abolition of poverty, by compulsory national insurance on an extension of the Rev. R. L. Blackley's celebrated plan; (3) for revising the whole system of land tenure, selling no more crown lands, resuming possession of lands that had been sold so as to reduce overgrown estates to moderate limits, devoting crown land rents to a fund for the support of widows and orphans; (4) for the redistribution of wealth on a more equitable basis than that at present in force, so as to remove the existent extremes of inequality. The correspondent is careful to state that Major Atkinson does not commit any of his colleagues to his views, which are certainly socialistic enough to be startling.

UNIFORM PAPER CURRENCY.

The article which appeared in the Toronto *World* on the necessity of adopting a national currency for Canada has attracted widespread attention in the Dominion. All the leading papers endorse the views of the *World*; and the San Francisco *Alta* thinks there is nothing to be wondered at this as the present currency system of Canada is an unqualified nuisance to its own people, and the real wonder is that it has been allowed to stand as long as it has. At present, a resident of British Columbia who offers the bank bills of that province in New Brunswick is obliged to submit to a discount of from 5 to 10 per cent., and even a new Brunswick bank bill must be shaved before it will pass current in the province of Ontario. At the same time one of the United States national bank notes passes anywhere in Canada for its face value. Worse still may be said of the Canadian currency system, for it is a fact that the notes of one bank are not receivable at their face value at all the other banks in the same province. The condition of things is worse than it was in the United States under the old State-bank system.

THE SUPREME COURT.

All is still doubt and uncertainty respecting the *status* of the courts of the province. A recent decision of the supreme court of Canada is represented (by newspaper report) to have held that the judges are under the control of the province and that it is quite competent for the legislature to enact laws regulating the procedure of the courts. One of the provincial acts which the B. C. judges decided to be unconstitutional was that which provides for but one sitting of the full court, in January of each year. Now, it is clear that if that act has been held at Ottawa to be unconstitutional, the full court cannot sit at Victoria in June. Naturally, the local judges, awaiting official information of the exact terms of the decision of the Ottawa judges, adjourned on Monday without transacting any business, pending the receipt of the official copy of the judgment, which is expected shortly.

TELEGRAPHIC DISPATCHES.

The announcement that *The Colonist* has secured telegraphic dispatches appears to afford the public much satisfaction. complaint against the Victoria press for apparent lack of enterprise has been general. Every class denounced the publishers for indifference to the popular desire for news; and strangers were especially struck with the behind the-age character of the press. These complaints will cease after the 1st proximo. The boom which struck the country last spring has at last reached *The Colonist* and the public will not henceforth be able to say with any show of justice that they are not being well served in the matter of news.

DR. COOPER'S VEGETABLE LIVER-WORT AND KIDNEY CURE

Has no equal as a safe remedy for all diseases of the liver, kidneys and urinary organs. Over 250,000 bottles sold during 1882. Price $1 a bottle. MOORE & Co., sole agents. dw

A PRAISEWORTHY OBJECT.

"None name it but to praise." This is true of that unsurpassed remedy, "Hagyard's Yellow Oil." It cures pain and inflammation, whether from sprain, bruise, or frost-bite, lame back, rheumatism, neuralgia, sore throat, croup, deafness, and for internal and external use. (31)

THE FRENCH BALSAM OF HONEY is especially adapted for coughs and colds in this climate. It never fails. Only 50 cents a bottle. None genuine unless a beehive and the name of Moore & Co., Yates street, Victoria, B. C., is on each bottle. dw

Victoria as a Summer Resort.

TO THE EDITOR:—Your article on Sunday morning last on this subject is undoubtedly a move in the proper direction; but I cannot agree with you that "the subject is more within the scope of the rising generation than the present one." San José, the city you refer to as an example of what travel and visitors will do to promote prosperity, is only a city of the present generation, who have made it the attractive place it is, and who are reaping the benefits of such action.

Now there are few places in the world that possess the same natural advantages that Victoria does to recommend it to pleasure seekers or people of leisure; there are few places that require a smaller outlay to render it healthy and attractive; and there is no reason why the present generation should not derive the benefits that would accrue from this outlay as well as their progeny. But our citizens must display a little energy; our wealthy men must show some enterprise, and not expect that others are to do all the work and run all the risk for their benefit. We have other points on this coast to compete with; we cannot remain idle and expect this city to assume the position that its beautiful surroundings, its facilities for boating and driving, its attractions for the lovers of sport—whether it be with the gun or the rod—its magnificent and grand drives, varied with its pastoral and cultivated scenery, entitle it to; nor, what is even a greater inducement, our delightful and healthy climate, with its well-marked seasons and equal temperature, so essential to the invalid. We must move, and move at once. Before many months are over the Northern Pacific railway will be completed and terminate within a few hours' run (across one of the prettiest water stretches on the continent) of our doors. It is impossible to conceive what the effect of this will be, but we may rest assured that although unadvertised and comparatively unknown, a large number of people will visit our shores. Let us prepare at once to receive them; let us see that suitable accommodation is procurable; let us give our support to such candidates for municipal honors as will pledge themselves to inaugurate a system of sewerage that will rid our city of its cesspools and drain our gutters of the stagnant water, which, were it not for the healthful breezes that prevail, would breed the most malignant forms of disease; who will encourage and assist in the planting of shade trees; and who will improve and increase our present water supply.

Let us show our visitors that we are alive to the advantages that nature has so bountifully bestowed upon us, and that, like the good servant in the parable who traded with his five talents, so as to multiply and increase them, we are like wise improving what we are endowed with as an heritage, so as to produce worthy results. Let us show them that it is our intention to make Victoria the most popular and attractive summer resort on the Pacific coast. To accomplish these things should be the object of our citizens. Our present hotel accommodation is totally inadequate. Even now, with the few visitors we have, quite a number are compelled to leave unable to find first-class accommodations. It is true, that excellent hotel, the Driard, is being enlarged so as to accommodate a much larger number of guests, and it is also true that an enterprising citizen is building what will be a first-class hotel on Yates street; but even then only a limited number will be accommodated compared with the demand we may expect next summer.

If necessary a joint stock company should be formed, and all our citizens subscribe for stock in proportion to their means and to the benefits they will derive, for the purpose of erecting a large and suitable hotel either in the centre of the city or on one of the many beautiful spots in the suburbs, with pleasure grounds attached. Such an investment would undoubtedly be a profitable one either directly or indirectly to each subscriber, and it is quite possible, having worked successfully elsewhere.

There are many suggestions, Mr. Editor, connected with this subject that can be ventilated through the columns of your paper; for which purpose, having started the ball rolling, I have no doubt you will gladly throw them open. But what we want is action; and immediate steps should be taken to act upon any good suggestions that may be offered.

Yours, etc., B.

Duty or Privilege?

GRANVILLE, July 5th.

TO THE EDITOR:—The following argument has taken place here: "A" says it is the duty of every citizen to arrest and take to gaol any one he may find breaking the law. "M" says it is not! who is right! P.

[It is not the duty, but it is the privilege of a citizen to arrest a lawbreaker in the act; that is, he may do so and the law will uphold him; but he is not obliged to do it unless called upon by a properly constituted officer of the peace to assist in the name of the Queen in arresting a wrongdoer. Then he is bound to help under pain of prosecution.—EDITOR.]

Eastern States.

BLOOMINGTON, Ill., July 7.—Miss Maria Vanestaur, known to the musical world as M'lle Marie Litta, died at her home in this city to-day.

NEW YORK, July 8.—A writer in the "Sun" says Charley Backus was a son of Theodore Backus, a poor gardener in cramped circumstances. His father compelled him to take to the streets as a news boy and candy peddler when other boys were at school.

CHICAGO, July 3.—Rev. Arthur Ritchie, whose high church proclivities became the theme of a communication from Bishop McLaren of this episcopal see, caused quite a sensation to-day by announcing that he would celebrate the requiem mass for the repose of the soul of Daniel Fenton, who with his father was drowned the latter part of May last in a wreck. Half the members left the church at once. As the ceremony began a note came from the mother requesting postponement of the service, as the body of her husband had just been recovered from the water and she wanted to bury both together.

Australia.

SYDNEY, N. S. W., July 7.—There is no foundation for the statement that the French flag has been hoisted on New Hebrides island by a French gunboat.

SAVED, SAVED, SAVED, was the expression of a distinguished citizen of Des Moines, Iowa, as he stepped out of the front door after being confined to the house for a year. He had been given up to die by his doctors, when a friend brought him a bottle of Dr. Van Buren's Kidney Cure, and in three months he was perfectly well. w

CANADA.

A BOGUS LOTTERY SCHEME—A BUSINESS PANIC FEARED—A DYNAMITE FIEND.

MONTREAL, July 8—About six years ago a monster lottery scheme for religious objects was launched here by the Rev. Father Villeneuve, who was at that time priest of Notre Dame church. Tickets were distributed all over Canada as well as the eastern and western states. Thousands were sold and the day of drawing, decided on subsequently, was frequently postponed on one pretext or another until the subscribers in Baltimore, Chicago, Boston and other cities lost all patience, and the matter become so hot for the reverend promoter that he took a trip to Rome five years ago, and no accounting has ever been made since of the thousands of dollars, in most cases hard earned money, paid for tickets. The agitation was revived by the return of the reverend father this week. He stopped here a day en route to Albany, New York, where he has an ecclesiastical appointment. During his residence here he was interviewed by Bishop Fabre, but the result of the reverend gentleman's explanation has not been revealed. The matter is likely to be publicly investigated, to learn who is delinquent and where the money has gone.

MONTREAL, July 8.—The condition of trade in Canada for the past six months has been very unsatisfactory and there are grave fears of a financial crisis arising from the undue expenditure and lavish railroad building during the last two years. The perilous state of trade is shown by a comparison of the failures for the first half of the present year, as compared with the same period of the two preceding years. In 1881 the number of failures was 322; assets, $2,448,000; liabilities, $4,410,000. In the year 1882 the number was 363; assets, $1,932,000; liabilities, $3,531,000. In the year 1883 the number was 746; assets, $4,231,000; liabilities, $8,672,000.

MONTREAL, July 7.—The *Witness* this evening publishes an interview with McDermott, in which he advocates Rossa's dynamite principles in the extreme form. His real object here is unknown, and all accounts published are merely conjectures as to his movements.

TORONTO, July 7.—White & Co., lace merchants of this city, have assigned. Liabilities, $90,000.

Hart, McCalley & McCabe, wholesale milliners, have called a meeting of their creditors. Liabilities, $60,000.

TORONTO, Ont., July 8.—Archbishop Lynch has issued a pastoral, demanding the payment of Peter's pence in the see under his control.

Forty American bicyclers are making a trip through the province of Ontario. At Goderich, Friday evening, they attracted an audience of 3000 persons by some fancy evolutions in the streets, and a banquet was given them in the council chamber.

A GIGANTIC SWINDLE.

A Number of Toronto Banks "Let in" for Heavy Amounts.

For some time Toronto has enjoyed an immunity from swindlers of any kind, but the lull was only that before the tempest. It has come with a rush, and $15,000 has gone in the hands of a few sharp swindlers. The banks were made the victims of the "deal," and have lost very heavily on it. Those which suffered are the agencies of the Federal, Quebec and Bank of Commerce. Two escaped out of the general loss, and these, the banks of British North America and Montreal, only by a deep knowledge by the tellers than the swindlers bargained for. About ten days ago a man representing himself as Walter Gardner, an American cattle dealer, who intended to make Toronto the location of his business, came into the Bank of British North America and presented a draft on the London branch for $600. He had a properly drawn out draft, and although the manager.

COULD NOT DOUBT ITS GENUINENESS

he had a suspicion that all was not right. So impressed was he with this belief that he gave orders for no deposits to be taken from the new customer till further orders from him. He received confirmation of the genuineness of the signature in a few days and Gardner drew his money. This was all the transaction he had with the institution, which loses nothing.

He next turned his attention to the Bank of Montreal's branch here, and presented to Mr. Crawford, the accountant, a draft purporting to be from the head office on New York for $5,500. He asked for the money and said that the bank had his signature forwarded from Montreal to identify him. Mr. Crawford asked him why, if he was coming to Toronto, he brought a draft on New York. He also noticed that the signature sent from Montreal for identification of the payee of a draft on London for $2,100 was forwarded in case he wanted to cash the London draft in Toronto. Taking this into consideration Mr. Crawford became doubtful, and examined the draft more closely. It had a nasty appearance, and looked as if it had been dried with a bad blotter. As Mr. Crawford had worked with Mr. Clayton he knew his signature, and could not recognize this as it at all. He decided to withhold payment in the absence of the manager, and so settled the attempt at swindling. A telegram from Montreal said that an order for a draft received in the interim

WAS A FORGERY.

The Federal Bank was next victimized, and in opening an account Gardner deposited a draft issued by the Quebec Bank at Three Rivers, on London, for $5,700. He drew $1,000, leaving the remainder to his credit. The draft has since been found to be false. In doing the same kind turn for the Bank of Commerce he deposited a bogus draft drawn by the Quebec Bank at Three Rivers. It was payable to himself at sight. The gentlemen with whom the swindler had dealings described him as a man of medium height, wearing dark clothes, silk hat, lower part of the face clean shaved, with a slight moustache. He was of very respectable appearance, had a shrewd look and cunning looking eyes. He told all that he was dealing in horses, and paid $2,500 for one pair in London.—*Mail.*

If you have feelings of goneness, too weak and dragging to rally, too nervous to sleep, digestion hardly sufficient to keep soul and body together, tired brain, headaches, pains across the back, the whole system relaxed, sore lungs or a cough, and will try from one to six bottles of Dr. Austin's Phosphatine, as the case may require, it will not fail to make you our enthusiastic friend. Price $1.00. For sale by all druggists. dw

At San Francisco, June 21st, William McCaw, a native of St. Stephen's, N.B., aged 51 years.

What Some People Say.

That a rich man in Philadelphia has left $50,000 for the investigation of spiritualism.

That English harvest reports are most favorable.

That Capt. Christopher Nelson, late of Goodall, Nelson & Perkins is coming to Victoria in quest of health.

That C. M. Bradshaw was elected mayor of Port Townsend on the 9th.

That Henry Ward Beecher in a letter to a Farmer's Club states the season to have been propitious, as "this patent hatcher brought forth twenty chickens out of five hundred eggs, and five of them were still alive." This is indeed being grateful for small mercies.

That the lady victims by the recent runaway accident were very ill yesterday and are confined to their beds; but no serious consequences are anticipated.

That Queen Victoria's mental condition causes great apprehension. The Princess Beatrice, when at Balmoral declared herself afraid to remain alone with her mother

That H. C. Wilson, the present efficient assistant engineer, will be a candidate for the position of chief at the approaching election.

That Spratt's ark has gone to Fraser river. There are other objects there that need "saving" besides the fish.

That Rev. H. W. Beecher will arrive at Victoria about the middle of August.

That Mr. Justice Walkem is preparing to shift his quarters to Cariboo, and Mr. Justice McCreight is going to reside at Kamloops.

That the blackened path left by the forest fire between Goldstream and Leech river, is over two miles in length and nearly a mile in width. While viewing the mountain sides from below nothing is to be seen but blackened trees and charred embers.

That W. and A. Gilbey, England, who expend nearly £10,000 annually in advertising, attempted once to decrease this outlay but found they could not afford to do so. In other words, their trade fell off in proportion as they discontinued their advertisements; well known as they were.

That the Chatham farm wagon with patent climax truss axle is imported only by Fellows & Prior, Government street, who are sole agents for the province. It is the best wagon now made, light running and durable.

That copies of the tariff changes may be had at *The Colonist* office and the bookstores to-day. *

Supreme Court.

(Before Sir M. B. Begbie, C. J., Hon. Justice Crease, Hon. Justice Gray and Hon. Justice McCreight and Hon. Mr. Justice Walkem.)

MONDAY, July 9th.

The court sat to hear an appeal in a customs case; but after consultation the Chief Justice said that it had been decided to adjourn the sitting until it had been ascertained by the judges what opinion had been given by the Supreme Court of Canada to the lieutenant.-governor in council. If, as had been published, the provincial act regulating the sitting of the court of appeal was decided to be constitutional, the court would not sit until January next as the local act provides but one sitting in each year of the full bench.

The court was then adjourned for a fortnight.

Is Carey Coming to British Columbia?

A telegram to the San Francisco *Bulletin*, July 2d, states that James Carey, the "boss" informer of the age, has left London for Nova Scotia, where he will decide whether to settle in British Columbia or Manitoba. As the latter province has peculiar claims on "assisted" immigrants, British Columbia will allow her to retain J. C. without a murmur of disapproval.

The Fishery Treaty.

In accordance with a resolution of congress, directing the president to notify the British government of the termination of certain articles of the treaty of May 8, 1871, relating to the fishery question, the British government has been so notified and these articles are to terminate the 2nd of July, 1883.

The Cholera in China.

The cholera has broken out at Wahowa, and is raging badly.

OBITUARY.—The death is announced at San Francisco of Wm. McCaw. The deceased who was a native of New Brunswick came to the Pacific coast in 1854 and commenced mining in Tuolomne county, Cal., but with indifferent success, losing in some ventures what he made in others. He came to British Columbia in 1858 and mined on the Fraser river bars. In 1864 or 1865 he made a raise in Montana, came back and went to Cassiar, where he was also successful, but was entirely without funds last winter when attacked with the complaint (aneurism of the heart) which has just proved fatal. Dr. Lane of San Francisco performed an operation on him and the liveliest hopes were entertained of his recovery, but a relapse took place which terminated fatally. His friends here who rendered him material assistance in procuring medical attendance, were only apprised of his death by an item in a San Francisco paper, though the deceased had relations in that city.

THE DREDGER.—The dredger for the past two days has been at work inside the harbor at Shoal Point.

Municipal Police Court.

(Before Hon. A. F. Pemberton.)

TUESDAY, July 10.

SANITARY BYLAW.

The case on remand against Mr. A. DeCosmos relative to premises on Cormorant and Government streets was proceeded with.

Supt. O'Connor stated that the drain constructed by Mr. DeCosmos was stated by Sergt. Bloomfield who was unavoidably absent, to be 2½ feet too high, only capable of carrying off slops without affecting the surface ground.

His honor said he had considered the question as to whether the owner or occupier ought to be summoned in such cases, and it appeared that bylaw 86 passed in 1881, stated that the mayor and council should have power to order the owner or agent or the occupier to remove nuisances, etc., according to circumstances.

Mr. DeCosmos said that the point he had more particularly raised was whether the corporation had power to order the owner of property to construct a drain, which he had done at an expense of $25, and he had also incurred similar expenses before; but he contended there was no basis in any by law for such an order.

His honor said Mr. DeCosmos had a right to raise such an objection, though he had not considered it. Bylaw 86, the latest authority, certainly did not seem to give power to order the construction of drains by propertyholders and he would remand the case till Thursday for further consideration.

ASSAULT.

Frank Douglas, on remand, charged with assaulting Charley, a Cowichan Indian.

Dr. Jackson deposed on July 5th he examined the Indian Charley and found four wounds in the neighborhood of the left eye, one being over the left cheek bone from which there was considerable hemorrhage. Had seen the Indian several times since and he was now out of danger. There was danger at one period from the bleeding that the man would lose his life The Indian was under the influence o liquor at the time and had a bottle when witness saw him.

Supt. O'Connor said that the man was drunk and no doubt did not know what he was doing at the time and had since been suffering from delirium tremens. The Indian was also drunk.

The prisoner said he was in the horrors at the time this was done; he did not know how it happened or what it was about

His honor committed him for trial

INDIAN LIQUOR LAW.

Charley, a Cowichan Indian, was charged with having liquor in his possession.

Officer Hough deposed on Thursday last when the prisoner was in Dr. Jackson's office having his wounds dressed he took the bottle produced out of his pocket.

The prisoner was fined $25 with costs, or one month imprisonment.

ASSAULT.

George McNeil was charged with assaulting Chas. McCorlick at Bowman's livery stables on the 8th inst.

The prosecutor stated that on Sunday morning the defendant on looking at one of the horses in the stable made some abusive remarks, to which the witness duly replied, when defendant struck him on the neck and face.

Supt. O'Connor stated the defendant was a respectable young man, and as the prosecutor was apt to be rough in his language he had probably himself to blame.

The Leonard Grover Comedy Co.

The Leonard Grover Comedy Company, which appears this evening at Philharmonic Hall, is from San Francisco, where they have played a long and brilliant engagement. It may simply be said for the benefit of those to whom they are unknown that the company is a superior one, and that it comprises several artists of marked ability. Mr. Leonard Grover is a host in himself, and the fact that he is the author of the plays which will be put on the boards in Victoria is a sufficient guarantee that the public may expect a dramatic treat, for authors are nervous people, and especially object to seeing their own plays murdered. In fact, the Leonard Grover Company is a splendid one, and the series of plays which will be performed during their stay are not only well known for their merits, but will derive peculiar interest from the fact that the author himself is present not only as an actor but also as a critic on the acting of others. Seats may be secured at T. N. Hibben & Co.'s.

Philharmonic Hall.

The entertainment given at the Philharmonic Hall last night by naval amateurs of the Swiftsure, was very successful, the hall being well filled with spectators, half of whom were messmates of the performers. Mr. G. H. Wood must be congratulated on the manner in which everything connected with the entertainment was managed. Songs and ballads were sung with great musical ability; while a recitation, "The Spanish Champion," by H. Eason, brought down the house. The lecture on Temperance, by G. H. Wood, was also loudly applauded; and the song and dance by J. Steeden, and "He's got 'em on," by H. Prowse, were deservedly encored. "See that my grave's kept green," and "Maggie May," though old tunes, sounded as sweet as of yore. The whole concluded with a screaming farce, in which each acquitted himself creditably. The funds acquired will form a substantial gift to the orphans for whom the entertainment was given.

MEDICAL LECTURE.—Mrs. Dr. Sawtelle delivered last night at the Central Hall the first of a series of lectures on the "Science of Health." The doctress explained how quickly sickness ensued when any hygienic law was outraged or ignored and pointed out how a little intelligent care in this direction, and judicious observation of the various laws which govern the human system, will bring increased health, comfort and consequently happiness. A medical gentleman followed with a diagnosis of the human frame, and the sensitiveness of the nervous system to external injury, relating many interesting experiences. Another free lecture will be given to-night.

PERSONAL.—Wm. Alexander, Esq., an eminent financier of Toronto, and Miss Alexander, are at the Douglas House. Mr. Alexander has come to Victoria to recuperate his health, which has been shattered by the rude climatic influences of Ontario.

THE ORIENTAL RESTAURANT.—This locomotive building has at last arrived safely on Cormorant street, and yesterday afternoon was taking its last twist into a position on the north side of the lower end of the street, near the Chinese theatre.

DEVELOPMENT OF KOOTENAY.

THE GREAT DRAINING SCHEME OF AN ENGLISH CORPORATION.

Their Plans, the Country and its Prospects.

Mr. Wm. A. Baillie-Grohman, the gentleman who represents a company of English capitalists who propose to drain and colonize the bottom lands of Kootenay district, has been in town for several days arranging the details of the great scheme with the government. He will leave today for Kootenay.

A representative of *The Colonist* found Mr. Grohman at the Driard yesterday afternoon busily preparing his baggage for transportation to the North Pacific. In reply to an inquiry regarding his land reclaiming scheme and the terms of the lease by which he and his friends acquire the Kootenay river bottom land, Mr. Grohman said:

The lower Kootenay country comprising the lands in question is very little known and at present a quite uninhabited country. Between Bonner's ferry on the Kootenay river and the lake, a distance of about 110 miles by river, there is only one white settler. The lands which we propose to reclaim are situated on both sides of the river. The valley, here about 5 or 6 miles wide, bounded on both sides by steep and densely timbered mountains. These bottoms are level stretches of meadow land annually inundated from the middle of May to the middle or end of July. The rise in the river in average years is about 22 feet and one can form, therefore, some idea of the vast volumes of water which we have to tackle. We propose to do so from two points, i.e., by digging a water ditch of considerable length connecting the upper waters of the Kootenay river with the headwaters of Columbia which at this point is of slightly lower elevation, and secondly, by widening the outlet of Lake Kootenay. The first mentioned work will subdue the Kootenay waters only to a very limited extent; the latter will be far more effective, but also very much more costly as we have to widen or lower the bottom of the outlet by blasting for at least six miles. From what I have seen of the country—my visit was during the high water—I should judge that a capital of at least $100,000 or $150,000 would be required to carry through this work. Our consulting engineer, a well known London C. E., will examine the whole question thoroughly this autumn when the water is sufficiently low to determine the difficulties in our way. It must not be supposed that the expenditure of these or any other sums are sure investments when waters of such huge volume have to be dealt with. Capital expended in such engineering feats is not an investment but a work in which you take your chances of success. If we do succeed we shall have some 70,000 acres of very excellent land, all of rich, alluvial soil, where luxuriant vegetation can be expected. Our scheme is an honest one: there is no land-grabbing about it, and we mean business right from the start. I have already signed contracts for a small steamer for our own use, to be on the river by August 15th. It will be the first on these waters, for the reported existence of other steamers on the river or Lake Kootenay is not correct. Our little steamer will have to be hauled over 48 miles of about the worst trail there is in this or any other country; but as we have just received a franchise from the territory of Idaho to build a toll road from Sandpoint to Pomier's ferry, upon which we intend to commence work at once, I have every hope that excellent communication will be established by next spring.

Rep.—Shall you draw your supplies from the American or the British side of the line?

Mr. G.—At present and for a year or two to come, till the Canadian Pacific railway is finished, the Kootenay country must necessarily draw its supplies from Sandpoint in Idaho, for the country in question is perfectly inaccessible from any other point. As soon as the C. P. R. R. shall have communication with Puget Sound, not only our pocket but also our preference to deal with our countrymen, will take us to British Columbia markets for our supplies and for our produce.

Rep.—Have you any experience of western life?

Mr. G.—For the past five years I have been visiting the western territories, spending six or eight months every year west of the Missouri, devoting myself exclusively to exploration and sport. I therefore am pretty well acquainted with the country between the Colorado river cañons into which my party was the second to penetrate, and the northern Rocky Mountains; but I must say I have never seen a country that pleased me in every respect (barring mosquitoes) so much as the Kootenay river and lake, and I certainly know no mountain lake either in Europe or America that struck my fancy more than Kootenay lake. It is strictly an alpine lake, the mountain slopes covered with good timber, coming down to the rock bound shores in as beautiful lines as I have ever seen, equal in many places to the famed Konigs see, the gem of the European alps. Back of the first row of mountains there is a second much higher range of peaks, whose large glacierlike snowfields and very bold crags make the picture the very ideal of alpine scenery. Concerning our intentions regarding the river lands which we have leased with the option of purchase from the government, I may say that we propose forming on them the Kootenay colony for immigrants of the best class, that is men of means, chiefly English army officers who have capital of their own and who desire to live in a beautiful country under the English crown, where sport is of such exceptional excellence as it is around Kootenay. The late army reforms in England are causing quite a considerable emigration of this very class, and Kootenay colony will, I think, cover just this want. Quite a number are coming out this autumn to look at the country, while three of my friends, who are principally interested with me in this scheme, rendezvous with me at the lake on September 15th. Amongst them are Mr. A. Staveley Hill, M. P. and Q. C., the well known member for Staffordshire, and W. H. Forbes, president of the Bell Telephone Company of Boston. The former bought last year a large ranch near Fort McLeod, and will visit it on his way out, crossing the Rocky Mountains by the Crow's Nest pass.

Mr. Baillie-Grohman is well known to English literary circles, and has been familiar with alpine feats since his early youth, having contributed two works on alpine exploration and one, "Camps in the Rockies," on his protracted travels on this continent. For the former he received the knight commander's cross of the Ernestine (Prince Consort's) House Order, although as a British subject he is debarred from accepting the title which goes with it.

Marine.

An attempt will be made to raise the ship War Hawk burned and scuttled at Port Discovery, W. T.

The improvements commenced some time ago on the steamer Yosemite, purchased from the Central Pacific railroad by Capt. Irving, and intended for trade on Fraser river, are about completed. Heavy braces have been added and a large number of commodious staterooms built The Yosemite presents a splendid appearance. She will come to Victoria in command of Capt. Thorn.

Repairs to the Sardonyx will be finished this week, the estimated cost being $10,000.

Steamer Eureka, recently wrecked in Peril straits, sails for Portland Saturday with freight and combustibles.

Steamship Barnard Castle and ship Invincible from Departure Bay arrived at San Francisco on the 8th.

The steamship Geo. W. Elder from San Francisco left for the Sound after discharging her freight, early yesterday morning.

The barque Gettysburg will leave Victoria at the end of the week for Burrard Inlet, where she will finish rigging. It is expected she will be ready for sea, with a load of lumber for Cape Town, South Africa, in about six week from date.

Madame Janauschek.

Madame Janauschek who will shortly appear before the public of Victoria, has given great satisfaction in San Francisco and Portland with her renditions of famous female historical characters. Her voice is described as fine, full and capable of being modulated to exactly meet the pathetic and tender passages, in which the interest of a play generally centres. She is well supported by a corps of efficient artists; and lovers of the drama may confidently look forward to an able exposition of thrilling historical personages. Mr. Louis A. Morgenstern, who represents the combination, is in town and making all necessary preparations for the company's reception.

Board of Fire Delegates.

At a meeting of the board last evening on motion of delegate Wilson from the Deluge Co., seconded by delegate Geiger, the salaries of chief and assistant engineers were ordered to be discontinued, as from the last of September. The vote was a tie, and president Lohse gave the casting vote in favor of the motion. The salary of the chief was $700; and of the assistant $300.

THE MADRAS RELEASD. The steamer Madras which has been in quarantine for the past ten or twelve days was released yesterday on the certificate of Dr. Jackson, health officer, that her passengers and crew were free from any contagious disease, and that the vessel and clothing on board had undergone a thorough fumigation. The steamer's captain, R. H. Brady, early in the morning evinced a desire to come into the harbor by tripping his anchor and laying off the entrance, awaiting permission to enter, which not arriving as quickly as he desired, he lowered a boat and rowed into the harbor, where he met the health officer just going off to the vessel. She will probably come alongside Turner, Beeton & Co.'s wharf to-day and discharge her freight and passengers. The latter have certainly had a long spell of it, having been on board 132 days. It should impress on them the importance of observing our sanitary laws.

THE PUBLIC SLIP.—The bridge at the public slip has become separated from the floating stage. In consequence the lower end lies in the water, the bridge resting at a very steep incline, so that any person coming down on a dark night and imagining things were in order, would be apt to find himself precipitated into the water. Matters have been in this state for a considerable time, rendering the slip useless.

THE H. B. CO.'S RETAINING WALL.—The retaining wall in course of erection by the Hudson Bay Co. along the line of their property on Wharf street is making considerable progress. It will be 200 feet long, 32 feet high, 5 feet thick at the base and 4 feet at the top. After the timbers of the old wall were removed a portion of the earth seemed to show a disposition to cave in, but fortunately there has been no further trouble.

BUILDING IMPROVEMENT.—Mr. G. Bossi has commenced a new brick building on Store street in the rear of his premises on Johnson street. It will be two stories high with a basement, having 72 feet on Store street with a depth of 50 feet, and will be divided into three stores.

THE PRINCESS LOUISE.—A pair of fine marine boilers are in course of construction at the Albion works. They are internally fired and have each two furnaces and have about ten large flues in the lower portion, and about 70 tubes in the upper. The outer shells are in a forward state and they will soon be put together.

SPRATT'S ARK.—Spratt's Ark not having found sufficient encouragement at Beechy Bay, will probably start for the Fraser to-day.

Egypt.

CAIRO, July 8.—At Damietta 93 deaths from cholera were reported to-day; Mansurah, 96; Samaband, 6; Sherbin, 6; and one only from Alexandria. Several cases have occurred among the gendarmes forming cordons around the infected districts, and particularly in the case of the cordon surrounding Samaband. Fresh cordons have been drawn around the old and infected districts.

CAIRO, July 9.—It is reported that a yacht is being prepared and will be held in readiness to take the Khedive to Naples in the event of the spread of the cholera making his departure necessary

ALEXANDRIA, July 9.—Provisions have been sent out to Damietta, as the people are starving. A number of European residents made an attempt to break the cordon round the town, and several were wounded.

Musical.

V. Poncelet, teacher of violin, flute and cornet. Rooms in Russell Block, corner Government and Johnson streets, up stairs. *

TO ENSURE QUALITY.—Neufelder & Ross, grocers, import choice Zinfandel Riesling and Angelica wines direct from California vineyards. For family trade these wines are noted for purity and flavor.

PROF FRANCIS is prepared to fill orders in tuning and repairing Musical Instruments of all kinds. Residence corner of Chatham and Douglas 3m*

PARIS CORRESPONDENCE.

Our Weekly Melange from the French Capital.

(Special Correspondence of The Colonist.)

7, RUE ROYALE, JUNE 2, 1883.

FRANCS FOR FLORA.

It is estimated that the daily sale of natural flowers in Paris realizes some twenty thousand dollars.

AMBROSIAL.

Those who are accustomed to drink champagne may be interested to know that, according to a return just made from the districts in which that wine is produced, the stock now in hand is equal to one hundred and nine million bottles, or about the quantity required for five years' consumption all over the world.

COSTLY FUNERAL DECORATIONS.

The floral crowns piled round the late M. Gambetta's coffin in the Palais Bourbon were worth over $100,000. There were more than four thousand of them, and the smallest must have cost $10. Paris and its environs produced them all, natural as well as artificial.

A BRILLIANT ASSEMBLAGE.

The leading social event in the American colony during the present week was the ball given by Minister Morton and Mrs. Morton on the evening of Friday, May 25th. The hour named in the invitations was 10 o'clock, and punctually to the minute the first guest arrived. Mr. and Mrs. Morton were assisted in receiving by the First and Second Secretaries of the American Legation. Mrs. Morton's toilette was in tulle and faille of the delicate shade known as Ophelia lilac. The corsage and the full draperies at the back of the skirt were in faille, the long trail being composed of skirt upon skirt of tulle, falling in plain folds. The draperies were caught back at intervals by clusters of red and gold yellow tulips. Mrs. Morton wore around her throat a band of black velvet set with five diamond stars. The floral decorations of the rooms were very profuse and beautiful, the halls, staircase, etc., being lined with flowering plants, while masses of blossoms transformed the mantel-piece and fire place in every room into a bank of flowers. The orchestra, stationed in the library, was almost hidden from view behind a barrier of flowers. Two refreshment-rooms were open all through the evening. I led the cotillon with Miss Watt, the daughter of the American Minister at Vienna, at the close of which the dancers passed before Mr. and Mrs. Morton, bowing as they passed, and then returned to the ball-room which had been transformed into a banqueting hall, small tables being placed throughout its entire extent. Supper was served in the French fashion, that is, with a regular bill of fare commencing with soup and ending with the fruits. It was nearly six o'clock and the brilliant sun of a bright May morning was shining over Paris when the last carriage rolled away from the "Place des Etats Unis." Among the persons present were the Premier and Mme. Jules Ferry, the Ministers of War, the Marine Justice, the Interior, and Posts and Telegraphs; Lord Lyons, Prince and Princess Hohenlohe, the Ambassadors of Austria, Italy, Spain, Chili, Persia, Japan, Portugal, Mexico, San Salvador, China and Peru, Marshal de MacMahon, and the Duchess de Magenta, the Dudes of Broglie, de Morny and de Talleyrand-Périgord, Prince Roland Bonaparte, Princess Jeanne Bonaparte, Marquise de Villeneure, Erclapon, Mme. and M. de Lesseps, Gen. and Mme. de Charette, Marquis de Tallyrand-Perigord, Marquis and Marquise de Belboeuf, Marquis de Caumont de la Force, Baron and Baroness Alphonse de Rothschild, the Marquise de Layfayette, the Marquis Rochambeau, Prof. Charles Rudy, Victor Wilbour, etc. As a rule, the toilettes of the ladies present were exceedingly elegant and tasteful. One of the most beautiful dresses of the occasion was that worn by Mrs. W. T. Groff. It was composed of gold spotted tulle and white faille, with a wide sash of pale blue satin caught up in a large butterfly bow just below the waist. The train was composed of full plain folds of tulle. She also wore a very splendid set of diamonds.

GAY "PAREE."

What a week we are having! Such excitement crowded into the short space of eight days is almost more than the most robust can stand. What with racing, duelling, amateur theatricals of a novel kind, sales by auction of pet actresses' effects, wars and rumors of wars, human nature of the idle genus can scarcely be dubbed so for the time being, and it must be looking forward with anxiety for the decision of the Grand Prix so that it may fly away and be at rest.

THE SAME FAULT AND SAME RESULT.

The hesitation and delay which have marked the action of the French government in delaying with the affairs of Tonquin have borne their sad and disastrous fruit in the sacrifice of the bravest officer in the French navy and 26 of his men. Eight years ago France should have done what she is doing now; if timely reinforcements had been sent out to Commandant Riviere this disaster would probably not have occurred. The enemy had been mustering in force near Hanoe, encouraged it is alleged by French inaction; and Commandant Riviere decided to head a reconnoitring party of 400 men, aided by a detachment from the Victorieuse and the Villars. When about three miles distant from Hanoi the party was assailed by a numerous force of the enemy, chiefly consisting of Pavillons Noirs, and had to fall back to the town. It was at this moment that Commandant Riviere was killed and Commandant Villers mortally wounded; the French loss being in addition 26 killed and 51 wounded. After the fatal engagement the French troops resumed their previous positions, that occupying the French concessions and the royal pagoda. Reinforcements were immediately ordered by telegraph from Cochin China pending the arrival of those now being sent, with remarkable unanimity from France.

A GOLDEN IDEA.

The Jardin des Plantes, in Paris, now posses a very curious bird called the "aurivoraux gigas," whose extraordinary habits have hitherto escaped the attention of writers on natural history. This bird is a species of white heron, with pink wings. In the wild state it has the peculiar habit of swallowing all bright objects that come in its way. The settlers in Sumatra, the home of this strange bird, have turned this instinct to account in their search after gold and precious stones. They domesticate the 'aurivoraux,' which is easily tamed, and send flocks of these birds under the charge of a native into the rivers and streams which carry down nuggets and gold dust. The goose with the golden egg is no myth after all!

WAS HE RIGHT?

Here is the portrait of Gambetta at 9 years of age, drawn by one of his schoolmasters: "Leon Gambetta is a dirty little pig of a violent character but intelligent and witty."

L. L. DOANE.

Eastern Canada Mail

(Per Steamer Geo. W. Elder.)

WINDSOR, June 28.—Jeremiah O'Connor, one of the best known residents of Essex county, died suddenly at his home here yesterday. He was around town as usual on Tuesday. Deceased was 44 years of age, born near Maidstone Cross, and held various official positions in the county, and was several years ago an unsuccessful candidate for Parliament. He was brother of ex Postmaster General John O'Connor.

Frank Ouellette, aged 21, who left Windsor a few weeks ago to engage in railroading in Minnesota, was run over by the train and instantly killed at St. Pauls yesterday. His mother lives near Windsor, and his body will be brought home.

TORONTO, June 29.—It is now said that the Directors of the Grand Junction railway, at the time of the sale of that road to the Grand Trunk, sold $100,000 of rolling stock which they had no right to dispose of. The shareholders are moving in the matter.

WINNIPEG, June 28.—The result of the election for representative for the Edmonton District in the North-West Council, held May 29th, is the return of Frank Oliver, of the Edmonton *Bulletin*, by a majority of 61 over his opponent Lamoureux.

WINNIPEG, June 27.—Louis Riel, whose name is prominently connected with the history of the Province, has arrived from Montana and proceeded to St. Vital where his mother lives. His five years' sentence of banishment expired two years ago last Saturday. He was called upon by a large number of his half breed friends, who still regard "The Chief," as they call him, with respect and admiration. Riel expresses his intention of going back to Montana, but it is hardly thought that he will do so.

Two evening papers in Montreal announce the resignation of Premier Mousseau of Quebec. They name Hon. Mr. Taillon as his successor, and say that Hon. Mr. Ross will also enter the Cabinet.

MONTREAL, June 28.—The young man Cleary, who went insane some time ago over the Irish question and tried to hang a policeman on the supposition that he was Carey, the informer, is now a violent lunatic, and destroys everything in his reach.

South America.

GUAYAQUIL, Ecuador, July 7.—There has been heavy firing all morning. The streets are lined with soldiers, and no one is allowed to pass. Business houses have all been closed by order of the vienten.

A slight earthquake was felt in Lima early on the morning of May 18th.

Smallpox is very prevalent in Valparaiso, and no improvement is looked for until a good downpour of rain shall have washed out the festering quebradas and sewers and refreshed the atmosphere. The loathsome disease is prevalent throughout the country generally, and is making many victims.

Lieut.-Colonel Drouilly has reported to the government that a body of unsubjugated Araucians made an incursion into Argentine territory, but they were attacked by the Chilean commander at Lincurs, assisted by friendly Indians. The ringleader, Peineo, and two young warriors were killed.

The Itata landed a sick passenger at Pisagua, Chili, some time in April, and as it was believed that he was ill of yellow fever, the greatest alarm prevailed, and the body was burned after death.

There was fighting in the river a little above Guayaquil, on May 30th, between the steamers of the contending parties. Very little damage done.

Dispatches from Juntas report that a fight took place near Guayaquil on the 4th of June, and that the insurgents were repulsed.

Contral America.

Locusts are committing ravages in Guatemala.

A proposition has been made to give the people of Guatemala water in a purer state by the use of filters, etc.

A clumsy forgery has lately been perpetrated on the International Bank, Guatemala, for an amount of $7,000, by a youth who counterfeited the signature of his father. The culprit was caught in Escuintla, and is now in the hands of the authorities.

From all departments of Guatemala collections of products are being sent in for transmission to Boston, and it is probable that the agricultural and other resources of this country will be so well represented as to draw considerable attention at the forthcoming exhibition.

The volcano of Ometepe, in Lake Nicaragua, has been displaying renewed signs of activity. From a crater recently opened on its east side eruptions of water have been pouring. No local disturbance, however, is felt, and little attention is paid to the phenomenon.

THE RESULTS.

All persons feeling dull or depressed, or perhaps feverish with no apetite, no energy, the system clogged, the liver torpid and the bowels inactive, who are wondering how to find relief, should purchase a 75 cent or $1.25 bottle of Sprup of Figs, read the circular around the bottle, follow the directions, taking a few doses of this pleasant remedy and be restored to health and happiness. It may be had of Langley & Co., agents for Victoria. 8

Warning!

An injunction has been awarded by the supreme court, restraining Langley & Co. ("Pharmaceutical Chemists, Yates street") from making use of labels similar to the labels of our celebrated French Balsam of Honey, and the public and dealers are cautioned against buying any bottles of French Balsam of Honey, except our names are attached thereto.

MOORE & CO.,
Wholesale and Retail Druggists.
Yates street, Victoria, B.C. dw

DON'T SUFFER from kidney disease when you can buy at your druggists a positive cure. Dr. Van Buren's Kidney Cure is the only scientific medical agent for those distressing complaints ever introduced. All druggists keep it. dw

MR. S. BOYD, traveling agent for Shipper & Schwartz, merchant tailors, 733 Market street, San Francisco, will be in Victoria, New Westminster and Nanaimo during the month of July to take measures for clothing. 1w*

DR. CHAN TAN TONG, from Canton, skillfully and confidentially treats all diseases of men, women and children. Office Bow Gee Tong, Government street. Dr. Chan Tan Tong practiced at San Francisco for ten years, and guarantees a cure as he uses hot medicines. *

IF YOU are desirous to obtain immediate relief from any kidney trouble, and thus prevent the fatal results that always attend the neglect of those distressing complaints (and who does not?) why, take Dr. Van Buren's Kidney Cure at once. It is safe, simple and effectual. dw

NEW ADVERTISEMENTS.

A BYLAW

TO REGULATE THE ERECTION OF WOODEN BUILDINGS WITHIN THE FIRE LIMITS OF THE CITY OF VICTORIA, AND TO PROVIDE FOR THE STORAGE OF INFLAMMABLE AND COMBUSTIBLE ARTICLES.

BE IT ENACTED BY THE MAYOR and Council of the Corporation of the City of Victoria:—

1. It shall be lawful for the Mayor and Council, from time to time when by them deemed necessary, to appoint an Inspector of Buildings, at such salary as the Municipal Council shall think proper.

2. The duties of such Inspector shall be to oversee the erection of all buildings hereafter to be erected, built, enlarged, altered, or re-erected within the City of Victoria, and to enforce the provisions of this Bylaw.

3. To examine, by virtue of his office, or whenever he may be so directed by the Mayor and Council, or by a Police Magistrate, or by any Justice of the Peace of the said City, all chimneys, fireplaces, hearths, ovens, boilers, furnaces, stoves, steampipes, stovepipes, funnels, flues and all places where fires are made or kept, or where ashes are kept; and also to examine all buildings or other premises where gunpowder, coal oil, hay, straw or other inflammable substances are kept, or where any trade which is considered by the Inspector of Buildings dangerous as causing or increasing the liability of fire is carried on, and to report thereon, and if necessary, to notify the owner, lessee, occupier or party using the building of any defect or objection thereto, or to the construction thereof, in any such stovepipe, chimney, fireplace or ashpit, and to direct the repair, alteration or discontinuance thereof as may be considered requisite.

4. If any owner, lessee, occupier or party using a building where any chimney, fire place, hearth, oven, boiler, furnace, stove, steam pipe, funnel, flue or place for keeping ashes, or any other place which is deemed to be dangerous, neglects to discontinue the use of, or to alter, repair, or remove the same in accordance with the notice in that behalf and issued by the inspector of buildings or under the authority of a resolution of the Municipal Council of the said city of Victoria and signed by the said Inspector, or by one of the Fire Wardens, he or they shall be liable to a penalty not exceeding ten dollars a day for each and every day that default shall be made in not complying with the said notice in addition to all other penalties imposed by this By-Law.

5. Until otherwise ordered by the said Municipal Council the City Surveyor shall perform the duties prescribed by this By Law, to be performed by the Inspector of Buildings.

6. In all cases of building or rebuilding any house, warehouse, or other building when on the line of any public street or within seven feet thereof, there shall be erected by the builder a board fence of not less than six feet in height to enclose not more than half of the width of the sidewalk in front of such building and outside of such fence a planked pathway shall be laid by such builder at least four feet wide, for the convenience of the public, or it shall be lawful for him instead of erecting such fence and pathway to plank over the whole of the scaffold at the height of the first floor above the ground floor of such building, and to enclose such scaffold at the same height at least eighteen inches all round above the level of the planked floor above said, the sidwalks of the street being left free for public use.

7. No person shall place any lumber, stone, chips, shavings, rubbish, or any building material whatever, on any sidewalk, except within the aforesaid fence, and when buildings are being erected on any street no person shall be allowed to occupy more than one-third in width of the roadway with any such building material so as to obstruct the free passage of the water in the drains, gutters or water courses, and no person shall suffer or permit any such building material to remain on the street any longer than is necessary for the erection of the building for which such material is designed; and on the completion of the external walls and roof of any such building, and of such completion the Inspector of buildings shall be sole judge, the contractor or owner thereof shall within three days thereafter entirely remove all materials from the street, and cause the street to be cleaned from all such building material and left in good repair.

CHIMNEY STACKS.

All Chimney Stacks shall be carried to a height of not less than four feet above the walls, Ridged Deck of any Roof except in cases where the Ridge or Deck of any Roof exceed the height of six feet above the base of such Chimney, then the height shall be determined by the said Inspector, and where a Chimney Stack is used to carry away smoke or noxious vapors from any manufactory, the said Stack shall be carried to such a height as to effectually clear the surrounding buildings to the satisfaction of the said Inspector of Buildings. All Stacks shall be built of Stone, Brick or Iron and in the most substantial manner.

BOILERS AND OVENS.

9. No timber shall be laid within two feet of the inside of any Oven, Copper, Still, Boiler or Furnace, nor within nine inches of the opening of any chimney, nor within seven inches of any metal flue, nor within four and a half inches of any brick flue, unless the wood is properly protected to the satisfaction of the Building Inspector.

STEAM PIPES AND FUNNELS.

No pipe or funnel for conveying steam shall be fixed next any public street or highway or on the front of any buildings, nor shall any funnel, pipe or flue for conveying fire or smoke be fixed on the inside of any building nearer than twelve inches to the face of any timber, nor shall any such funnel, pipe or flue pass through any timber, framing or partition of wood, or wood and lime, or through any wooden floor, in any house, outhouse, fence or building whatever, within the said City, unless there shall be a space of at least six inches clear between the said funnel, pipe or flue and such framing, partition or floor, and the same pass through a chimney of stone or bricks and mortar, or be encased by a rim of solid stone or thick metal not less than three inches wide and equal in thickness to the full finished thickness of the framing through which such pipes shall pass.

11. No occupant of any house or building within the said City shall permit any pipe-hole not in use in any chimney in such house or building to remain open; all such holes shall be closed with a proper stopper of metal or other incombustible material.

12. No person shall place or keep any ashes in any wooden box, or within three feet of any wooden floor or partition, or in any outhouse or shed, unless properly protected; and no person shall store or permit to be stored any combustible material in any yard within one hundred feet of any building unless the same is properly covered and protected from fire, and of the sufficiency of such protection the Inspector of Buildings shall be sole judge.

13. No person shall set up, erect, or construct, or build, or use, work, or cause or procure to be set up, erected, constructed, built or worked, any steam engine except under the terms of this bylaw.

14. No person shall establish, set up, carry on or continue within the said City any tannery, fellmongery or place for boiling soap, making or running candles, or for the melting of tallow, or any manufacture of varnish, fireworks, or any coal oil refinery, or any other factory which from its nature or the material used therein shall be dangerous, in causing or promoting fires, unless and until he shall have obtained a certificate of compliance with the general regulations hereby prescribed or to be prescribed by any bylaw of the Corporation.

INFLAMMABLE SUBSTANCES.

15 No larger quantity than 80 gallons of coal oil or any oils of a similar character in wooden casks, nor more than 300 gallons if in tin, metal, stone or earthenware, nor a larger quantity than 20 gallons of crude oil, burning fluid, naptha, benzole, benzine or other similar combustible and dangerous material shall be kept in any wooden building within the city limits, nor a larger quantity than 150 gallons of coal oil, or other such oils in wooden casks, or 750 gallons in tin, metal, stone or earthenware, nor any larger quantity than 80 gallons of crude oil, burning fluid, naptha, benzole, benzine or other similar combustible or dangerous material shall be kept in any brick building within the city limits unless the same shall be kept in a cellar properly ventilated and without a floor or one of brick, stone, cement, or other incombustible material, then 300 gallons of coal oil or other such oils in wooden casks or 1000 gallons if in tin, stone or earthenware may be kept, nor shall any of the fluids before mentioned be permitted to flow into any drain or sewer of the said city.

16. Notwithstanding any thing in the preceding section contained, when fire proof buildings are so constructed as to insure at all times a thorough ventilation thereof and are used exclusively for the purpose of keeping or storing coal oil, burning fluid, crude oil, naptha, benzola or other similar combustible or dangerous materials are isolated or detached at least two hundred feet from all other buildings, then any of the said fluids may be kept and stored therein without limit as to quantity.

17. No fire shall be taken into lighted or used within the said last mentioned storage buildings either for heat, light or any other purpose whatever.

18. Every person desiring to keep or store in the manner provided by the 16th section of this By-Law any of the fluids mentioned in the said 16th section, shall make a written application to the Mayor and Council for permission so to do, and shall state in such application the store, house, shop, building or place in which he desires to keep or store the said fluids, or any of them, and it shall be the duty of the said inspector to examine the premises of the applicant and to report to the said Mayor and Council thereon, and upon every such report the said Mayor or Council shall either grant or refuse permission.

19. When any building or buildings within the city limits shall be deemed by the City Inspector to be unsafe from any cause, the owner, lessee, contractor or agent shall be notified at once to make the same safe and secure, and every person so notified who fails within twenty-four hours (or such time as shall be expressed in the notice) to comply with such notice, shall be subject to all the penalties of this By-Law.

FIRE LIMITS.

20. The Mayor and Council may from time to time by resolution very the existing Fire Limits.

21. No building shall be erected or placed on old or new foundations or on foundations partly old and partly new within the fire limits unless the same shall be built with main walls of concrets, stone, brick, iron or other suitable materials and the external walls of any brick building must be of not less than the following dimensions:

ONE-STORY BUILDINGS.

Outside walls shall not be less than one brick or 8½ inches thick, or more than 14 feet in height, or more than 50 feet in length unless strengthened by cross partitions or other means approved by the Inspector of buildings.

One and a half brick or 12½ inch thick walls shall not exceed 16 feet in height nor 70 feet in length unless strengthened by cross partitions or other means approved by the Inspector of buildings.

TWO-STORY BUILDINGS.

Outside walls, ground floor wall, to be not less than one and a half brick or 12½ inches thick, and not to exceed 16 feet in height or 70 feet in length without being strengthened by cross walls, partitions or other means approved of by the said Inspector.

Outside walls, first floor, to be not less than one brick or 8½ inches thick, nor more than 14 feet in height nor more than 50 feet in length unless strengthened as aforesaid.

THREE-STORY BUILDINGS.

Ground floor outside walls shall not be less than two bricks or 17½ inches thick, nor more than 17 feet in height nor more than 100 feet in length, unless strengthened as before mentioned.

First floor outside walls shall not be less than one and a half brick, or 12½ inches thick, nor more than 14 feet in height, nor more than 50 feet in length, unless strengthened as aforesaid.

Second floor outside walls shall not be less than one brick or 8½ inches thick nor more than 12 feet in height nor more than 50 feet in length, unless strengthened as before mentioned. And for every additional 20 feet length or 2 feet in height, or any fraction thereof added to any of the above measurements one half brick, or 4½ inches in thickness, must be added to the thickness of walls of each and every story; and the brick or stone work of any and every building must be carried to such height as may be requisite to effectually protect the woodwork of roof of such building from any adjoining building. and to the satisfaction of the City Inspector of buildings.

Basement walls are to be not less than 4½ inches thicker than the walls under which they are built, and shall be of either stone, brick or other suitable narials, and for every four feet in height over 10 feet or 20 feet in length over 70 feet, or any part thereof, then the walls must be increased in thickness 4½ inches.

Foundations to Brick or Stone Buildinfis not having Basements are to be not less than 18 inches in the solid ground below the floor level, and to be not less than 4½ inches thicker than the walls under which they are built, and are to be of Brick, Stone or other suitable material.

ROOF COVERINGS.

Roof coverings shall be of slate, tin, iron or other incombustible materials.

PUBLIC BUILDINGS.

22. All Doors in Theatres, Music Halls, Hotels, Churches and other buildings used for the assembly of large bodies of persons, must open outwards, and ample provision be made for the rapid emptyings of the said buildings.

23. No wooden buildings within the said fire limits shall be removed, except to a portion of the same lot on which it stands, or to a point outside of fire limits, and then only with the written permission of the Mayor and Council and subject to such conditions and stipulations as may be thought advisable, and no wooden building within the said limit shall be altered or changed without the written permission of the Inspector of buildings approved by a majority of Fire Wardens, which permit shall specify fully the alterations required, and no such permit shall be given if any increase will be made by the proposed change or alteration in the size of the wooden building within the said limits, or if such repairs increase the value of such building more than twenty-five per cent. the application therefore and a copy of each of such permits shall be kept in the office of the City Clerk.

PARTY WALLS, ARCHES, CHIMNEYS.

24. All party walls shall be built between house and house, except in such parts where each house has independent walls. Party walls not being of sufficient thickness shall be taken down when one or more of the adjoining houses requires to be rebuilt. External walls shall not become party walls unless the same shall have been previously erected in accordance with the provisions of the By-Law. The brickwork in all party walls and external walls shall be properly bonded, or anchored in every case.

25. No timber shall at any time hereafter be laid into any party wall or arch, except for bond to the same, nor into any party wall other than such templets, chains and bond-timbers as shall be necessary for the same, and other than the ends of girders, beams, binding or brumming joists, or other principal timbers; all of which timbers shall have at least four inches and a-half of solid brickwork between the ends and sides thereof, and the timber of any building adjoining thereto, and the ends of every girder, beam, purline, binding or trimming joists, and every piece of principal timber may be laid beyond the centre of any party wall, providing that there be left four inches and a-half of solid brick or stonework at the end of every such piece of timber, except in places where any parts of the ends of any such timber shall be opposite to and level with any part of the ends of any timber of any adjoining building, in which case no part of such timber shall approach nearer than two inches to the centre of the said party wall.

BREAST SUMMERS.

26. Breast-summers in all cases shall be carried on brick or stone walls, or piers, or on cast iron columns seated on stone, and shall in no case be carried on story posts or other timber supports; and when the ends of any breast-summers shall approach the centre line of any party wall nearer than four inches and a-half, such ends shall be encased and entirely surrounded in cast iron shoes.

CHIMNEYS AND HEARTHS.

27. All Chimneys back to back on party walls shall be in the chimney backs at the least one brick or 8½ inches in thickness. Chimney backs in party walls not being back to back with any other chimney shall be at least 8½ inches clear from the party line; the thickness above specified to be continued to a height of at least 8 inches above the mantel in every case. All flues built in internal, external or party walls shall be surrounded by brickwork not less than 4 inches in thickness.

28. Chimney Hearths shall in all cases be laid wholly on brick or stone in cement, unless the same be in a cellar or basement story and be laid and bedded in solid earth, and every chimney shall have a slab or slabs or foot pieces before the same of stone, bricks, marble, iron or cement at least one foot four inches broad and extending at least six inches beyond each end of every fireplace opening.

29. Hay or Straw shall not be permitted to be stored or kept for sale in buildings within the city limits unless the same shall be properly secured from danger by fire to the satisfaction of the Inspector of Buildings and the Fire Wardens, and if any building used for the storage of hay or straw shall be deemed dangerous by the said Inspector or Fire Wardens the parties using the same shall be notified to discontinue the use thereof or to have said buildings made secure, and for every day so using the said buildings, or permitting them to be used after the expiration of such notice, they shall be liable for the full penalty mentioned in this Bylaw.

30. The line of wall of any building fronting on any street, alley, lane or public highway within the limits of the City of Victoria, shall be parallel with the centre line of such street, alley, lane or public highway as laid down on the official map of the said city, and no building, or part of any building shall project or encroach on any such street, alley, lane or public highway.

31. The penalty for the breach of any section of this bylaw shall be the same as is mentioned in the Municipality Act, 1881.

32. All bylaws and parts of bylaws conflicting with this bylaw shall be, and the same are hereby repealed.

33. This bylaw shall be cited as the "Victoria Building Bylaw, 1883." Passed the Council this 29th day of June, A.D., 1883.

INSHORE FISHERIES, BRITISH COLUMBIA

PUBLIC ATTENTION IS CALLED TO CERTAIN provisions of the Statutes of Canada, intituled respectively, "An Act respecting Fishing by Foreign Vessels," 31 Vic., Cap. 61, and "An Act to Extend to British Columbia the Act Relating to Fishing by Foreign Vessels," 46 Vic., Cap. 27, forbidding any foreign ship, vessel or boat, not navigated according to the laws of the United Kingdom, or of Canada, to fish for, take, dry or cure any fish of any kind, within three marine miles of the coasts, bays, creeks or harbors of Canada, not affected by the Convention of 1818, and the Treaty of Washington, between Great Britain and the United States.

Ships, vessels and boats, together with all goods, tackle, rigging, apparel, furniture, stores and cargo liable to forfeiture under the said Acts, may be seized by any of the Officers hereinafter named:—

Fishery Officers, Customs Officers, Sheriffs, Magistrates and Commissioned Officers of Her Majesty's Navy.

By order of the Acting Minister.

W. F. WHITCHER,
Commissioner of Fisheries.

[L.S.] CLEMENT F. CORNWALL
CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c.

To all to whom these presents shall come.—GREETING.

A PROCLAMATION.

P. Æ. IRVING, *Deputy Attorney-General.* } KNOW YE, that an Act of the Legislature of the Province of British Columbia, passed in the 45th year of Her Majesty's Reign, chapter 18, and intituled—

"An Act to consolidate and amend the Laws relating to Gold and other Minerals, excepting Coal," was, on the 12th day of May, 1883, disallowed by His Excellency the Governor-General of Canada in Council.

The communication by the Honorable the Secretary of State of such disallowance was dated 17th May, 1883.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of the said Province to be thereunto affixed: WITNESS, the Honorable CLEMENT F. CORNWALL, Lieutenant-Governor of Our said Province of British Columbia, in the City of Victoria, in Our said Province, this Twelfth day of June, in the year of Our Lord, One thousand eight hundred and eighty-three, and in the forty-sixth year of Our Reign.

By Command,

JNO. ROBSON,
Provincial Secretary. je15 1m

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To Our faithful the Members elected to serve in the Legislative Assembly of Our said Province, and to all whom it may concern,—GREETING.

A PROCLAMATION.

ALEX. E. B. DAVIE, *Attorney General.* } WHEREAS WE HAVE thought fit, by and with the advice of Our Executive Council of Our said Province of British Columbia, to prorogue the Legislative Assembly of Our said Province until the Twelfth day of July, one thousand eight hundred and eighty-three.

NOW KNOW YE that We do, for that end, publish this Our Royal Proclamation, and do hereby prorogue the Legislative Assembly accordingly until the TWELFTH day of JULY, one thousand eight hundred and eighty-three; hereby convoking, and by these presents enjoining you, and each of you, that on THURSDAY, the TWELFTH day of JULY next, you meet Us in Our said Legislature or Parliament of the said Province, at Our City of Victoria, and therein do as may seem necessary. Herein fail not.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of British Columbia to be hereunto affixed WITNESS, the Honorable CLEMENT F. CORNWALL, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this Twelfth day of May, in the year of Our Lord, one thousand eight hundred and eighty-three, and in the forty sixth year of Our Reign.
